### 1. Basis of Preparation and Presentation

Seneca Foods Corporation (the “Company”) is a leading provider of packaged fruits and vegetables with 26 facilities in eight states in support of its main operations. The Company’s product offerings include canned, frozen and jarred produce, and snack chips. The Company’s fruits and vegetables are sold nationwide by major grocery outlets, including supermarkets, mass merchandisers, limited assortment stores, club stores and dollar stores. The Company also sells its products to foodservice distributors, restaurant chains, industrial markets, other food processors, and export customers in approximately 55 countries, as well as federal, state and local governments for school and other food programs. Additionally, the Company packs canned and frozen vegetables under contract packing agreements.

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The unaudited condensed consolidated financial statements included herein have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) applicable to interim financial statements. While these statements reflect all adjustments (consisting of items of a normal recurring nature) that are, in the opinion of management, necessary for a fair presentation of the results of the interim period, they do not include all of the information and footnotes required by generally accepted accounting principles in the United States (“GAAP”) for complete financial statement presentation. The condensed consolidated financial statements should be read in conjunction with the financial statement disclosures in the Company’s Annual Report on Form 10-K for the fiscal year ended March 31, 2024.

Due to the seasonal nature of the business, quarterly operating results and cash flows are not necessarily indicative of the results that may be expected for other interim periods or the full year. All references to years are fiscal years ended or ending March 31 unless otherwise indicated. Certain percentage tables may not foot due to rounding.

In certain circumstances, the preparation of financial statements in conformity with GAAP requires management to use judgment to make certain estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the condensed consolidated financial statements, and the reported amounts of net sales and expenses during the reporting period. The Company evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors that management believes to be reasonable under the circumstances, including the current economic environment. The Company adjusts such estimates and assumptions when facts and circumstances dictate. Actual results may differ from these estimates.

The Company uses the same accounting policies in preparing quarterly and annual financial statements. A summary of significant accounting policies followed by the Company are set forth in Note 1 to the Consolidated Financial Statements in the Company’s Annual Report on Form 10-K for the fiscal year ended March 31, 2024.

*Reclassifications* — Certain prior year amounts have been reclassified for consistency with the current year presentation within the condensed consolidated financial statements. There was no impact to any totals or subtotals previously reported on the condensed consolidated financial statements as a result of the reclassifications. Beginning in fiscal year 2024, the restricted cash line item was separately presented on the condensed consolidated balance sheets.

*Cash, Cash Equivalents and Restricted Cash* — The following table reconciles cash, cash equivalents and restricted cash as reported on the condensed consolidated balance sheets to the total amounts shown in the Company’s condensed consolidated statements of cash flows (in thousands):

	As of:		
	June 29, 2024	July 1, 2023	March 31, 2024
Cash and cash equivalents	\$ 5,544	\$ 5,216	\$ 4,483
Restricted cash	7,431	7,075	7,370
Total cash, cash equivalents and restricted cash	<u>\$ 12,975</u>	<u>\$ 12,291</u>	<u>\$ 11,853</u>

*Other Assets* — Other assets is primarily comprised of non-current deposits. As of June 29, 2024, there was \$20.3 million of deposits paid to vendors for a new can manufacturing line located at one of the Company’s plant facilities.

**SENECA FOODS CORPORATION**  
**NOTES TO CONDENSED CONSOLIDATED STATEMENTS**  
(Unaudited)

*Recently Issued Accounting Pronouncements* — In December 2023, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* (“ASU 2023-09”) related to income tax disclosures. The amendments in this update are intended to enhance the transparency and decision usefulness of income tax disclosures primarily through changes to the rate reconciliation and income taxes paid information. This update is effective for annual periods beginning after December 15, 2024, though early adoption is permitted. The Company plans to adopt this pronouncement for its fiscal year beginning April 1, 2025, and is in the process of analyzing the impact on its consolidated financial statements.

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* (“ASU 2023-07”) to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. This update is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, and requires retrospective application to all prior periods presented in the financial statements. Early adoption is permitted. The Company will adopt this pronouncement when it becomes effective for the fiscal year ending March 31, 2025 annual reporting and is in the process of analyzing the impact on its consolidated financial statements.

All other newly issued accounting pronouncements not yet effective have been deemed either not applicable or were related to technical amendments or codification.

**2. Revenue Recognition**

Revenue recognition is completed for most customers at a point in time when product control is transferred to the customer. In general, control transfers to the customer when the product is shipped or delivered to the customer based upon applicable shipping terms, as the customer can direct the use and obtain substantially all of the remaining benefits from the asset at this point in time. The Company does sell certain finished goods inventory for cash on a bill and hold basis. The terms of the bill and hold agreement(s) provide that title to the specified inventory is transferred to the customer(s) prior to shipment and the Company has the right to payment (prior to physical delivery) which results in recorded revenue as determined under the revenue recognition standard.

In the following table, revenue is disaggregated by product category groups (in thousands):

	Three Months Ended	
	June 29, 2024	July 1, 2023
Canned vegetables	\$ 253,749	\$ 250,950
Frozen vegetables	25,334	21,539
Fruit products	18,841	16,738
Snack products	2,865	3,098
Other	3,938	6,339
Total	<u>\$ 304,727</u>	<u>\$ 298,664</u>

As a result of certain contracts with customers, the Company has contract asset balances of \$1.2 million, \$0.6 million, and \$0.4 million as of June 29, 2024, July 1, 2023, and March 31, 2024, respectively, which are recorded as part of other current assets on the condensed consolidated balance sheets. The Company has contract liabilities in the form of deferred revenue representing payments received from certain of its co-pack customers in advance of completion of the Company's respective performance obligations. The majority of the balance is comprised of prepaid case and labeling and storage services which have been collected from bill and hold sales, as well as amounts invoiced in accordance with the terms of a co-pack agreement.

The deferred revenue activity is shown in the following table (in thousands):

	Three Months Ended

Total shares for diluted	7,029	7,663
Diluted earnings per common share	\$ 1.80	\$ 3.01

**4. Inventories**

The Company uses the last-in, first-out (“LIFO”) method of valuing inventory as it believes this method allows for better matching of current production cost to current revenue. An actual valuation of inventory under the LIFO method is made at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management’s estimates of expected year-end inventory levels, production pack yields, sales and the expected rate of inflation or deflation for the year. The interim LIFO calculations are subject to adjustment in the final year-end LIFO inventory valuation.

As of June 29, 2024, July 1, 2023, and March 31, 2024, first-in, first-out (“FIFO”) based inventory costs exceeded LIFO based inventory costs, resulting in a LIFO reserve of \$321.9 million, \$300.7 million, and \$324.8 million, respectively. In order to state inventories at LIFO, the Company recorded a decrease to cost of products sold of \$2.9 million and \$1.7 million for the three months ended June 29, 2024 and July 1, 2023, respectively.

The inventories by category and the impact of using the LIFO method are shown in the following table (in thousands):

**6. Debt**

**Note Payable** — During fiscal year 2024, the Company entered into an unsecured note payable with an individual lender which provides for an interim financing arrangement with an expiration date of June 30, 2024, which was then extended to July 31, 2024. The balance of the note payable as of June 29, 2024 was \$13.9 million and is associated with certain deposits paid to vendors for a new can manufacturing line located at one of the Company’s plant facilities. The note payable bears interest at a variable interest rate based upon the Secured Overnight Financing Rate (“SOFR”) plus 1.80%. Interest is payable monthly and the interest rate as of June 29, 2024 was 7.13%.

Long-term debt is comprised of the following (in thousands):

**Revolving Credit Facility** — On March 24, 2021, the Company entered into a Fourth Amended and Restated Loan and Security Agreement that provides for a senior revolving credit facility of up to \$400.0 million that is seasonally adjusted (the “Revolver”).

On September 14, 2022, the Company entered into a First Amendment to the Fourth Amended and Restated Loan and Security Agreement (the “Revolver Amendment”) which amended several provisions to replace the London Interbank Offered Rate (“LIBOR”) with the SOFR plus a spread adjustment as the interest rate benchmark on the Revolver. The transition to SOFR did not materially impact the interest rates applied to the Company’s borrowings. No other material changes were made to the terms of the Company’s Revolver as a result of the Revolver Amendment.

On May 5, 2023, the Company entered into a Second Amendment to the Fourth Amended and Restated Loan and Security Agreement (the “2023 Revolver Amendment”) which updated certain provisions relating to permitted indebtedness. No other material changes were made as a result of the 2023 Revolver Amendment.

On March 8, 2024, the Company entered into a Third Amendment to the Fourth Amended and Restated Loan and Security Agreement (the “2024 Revolver Amendment”) which increased the seasonal borrowing amount for the period from April through July by \$50.0 million. No other material changes were made as a result of the 2024 Revolver Amendment.

Maximum borrowing availability under the Revolver totals \$350.0 million from April through July and \$400.0 million from August through March. In order to maintain availability of funds under the facility, the Company pays a commitment fee on the unused portion of the Revolver, which as of June 29, 2024 was \$133.9 million. The Revolver balance is included in Long-Term Debt in the accompanying condensed consolidated balance sheets due to the Revolver’s March 24, 2026 maturity.

The Revolver is secured by substantially all of the Company’s accounts receivable and inventories and contains borrowing base requirements as well as a financial covenant, if certain circumstances apply. The Company utilizes its Revolver for general corporate purposes, including seasonal working capital needs, to pay debt principal and interest obligations, and to fund capital expenditures and acquisitions. Seasonal working capital needs are affected by the growing cycles of the vegetables the Company packages. The majority of vegetable inventories are produced during the months of June through November and are then sold over the following year. Payment terms for vegetable produce are generally three months but may vary and range from approximately one to seven months. Accordingly, the Company’s need to draw on the Revolver may fluctuate significantly throughout the year.

The following table summarizes certain quantitative data for Revolver borrowings during fiscal year 2025 and fiscal year 2024 (in thousands):

	As of:		
	June 29, 2024	July 1, 2023	March 31, 2024

Weighted average interest rate	6.93%	6.36%

**Term Loans** — On May 28, 2020, the Company entered into an Amended and Restated Loan and Guaranty Agreement with Farm Credit East, ACA that provides for a \$100.0 million unsecured term loan (the “Term Loan”). The amended and restated agreement has a maturity date of June 1, 2025 and converted the Term Loan to a fixed interest rate of 3.3012% until maturity rather than a variable interest rate in addition to requiring quarterly principal payments of \$1.0 million, which commenced during fiscal year 2021. This agreement contains certain covenants, including maintaining a minimum EBITDA and minimum tangible net worth.

On January 20, 2023, the Company entered into a Second Amended and Restated Loan and Guaranty Agreement with Farm Credit East, ACA (the “Agreement”) which governs two term loans, as summarized below:

**SENECA FOODS CORPORATION**  
**NOTES TO CONDENSED CONSOLIDATED STATEMENTS**  
**(Unaudited)**

Term Loan A-1: The Agreement continues certain aspects of the \$100.0 million term loan described above, namely Term Loan A-1 will continue to bear interest at a fixed interest rate of 3.3012%, mature on June 1, 2025, and remain unsecured. The Company's historical practice is to hold term debt until maturity. The Company expects to maintain or have access to sufficient liquidity to retire or refinance long-term debt at maturity or otherwise, from operating cash flows, access to the capital markets, and its Revolver. The Company continuously evaluates opportunities to refinance its debt; however, any refinancing is subject to market conditions and other factors, including financing options that may be available to the Company from time to time, and there can be no assurance that the Company will be able to successfully refinance any debt on commercially acceptable terms at all.

Term Loan A-2: The Agreement adds an additional term loan in the amount of \$175.0 million that will mature on January 20, 2028, and is secured by a portion of the Company's property, plant and equipment. Term Loan A-2 bears interest at a variable interest rate based upon SOFR plus an additional margin determined by the Company's leverage ratio. Quarterly payments of principal outstanding on Term Loan A-2 in the amount of \$1.5 million commenced on March 1, 2023.

On May 23, 2023, the Agreement was amended by the Second Amended and Restated Loan and Guaranty Agreement Amendment which amends, restates and replaces in its entirety Term Loan A-2 (the "Amendment"). The Amendment provides a single advance term facility in the principal amount of \$125.0 million to be combined with the outstanding principal balance of \$173.5 million on Term Loan A-2 into one single \$298.5 million term loan ("Amended Term Loan A-2"). Amended Loan Term A-2 is secured by a portion of the Company's property, plant and equipment and bears interest at a variable interest rate based upon SOFR plus an additional margin determined by the Company's leverage ratio. Quarterly payments of principal outstanding on Amended Term Loan A-2 in the amount of \$3.75 million commenced on June 1, 2023. The Amendment continues all aspects of Term Loan A-1 as defined in the Agreement. As of June 29, 2024, the interest rate on Amended Term Loan A-2 was 7.35%.

The Amendment for Term Loan A-1 and Term Loan A-2 (collectively, the "Term Loans") contains restrictive covenants usual and customary for loans of its type, in addition to financial covenants including minimum EBITDA and minimum tangible net worth which apply to both Terms Loans described above. In connection with the Amended Term Loan A-2, the Company incurred \$1.1 million of financing costs which will be deferred and amortized over the life of the term loan.

As of June 29, 2024, the Company was in compliance with all covenants for its revolving credit facility and term loan agreements.

**Standby Letters of Credit** – The Company has standby letters of credit for certain insurance-related requirements. The majority of the Company's standby letters of credit are automatically renewed annually, unless the issuer gives cancellation notice in advance. On June 29, 2024, the Company had \$7.0 million in outstanding standby letters of credit. These standby letters of credit are supported by the Company's Revolver and reduce borrowings available under the Revolver.

## 7. Leases

The Company determines whether an arrangement is a lease at inception of the agreement. Presently, the Company leases land, machinery and equipment under various operating and financing leases.

Right-of-Use ("ROU") assets represent the Company's right to use the underlying assets for the lease term, and lease obligations represent the net present value of the Company's obligation to make payments arising from these leases. ROU assets and lease obligations are recognized at commencement date based on the present value of lease payments over the lease term using the implicit lease interest rate or, when unknown, an incremental borrowing rate based on the information available at commencement date or April 1, 2019 for leases that commenced prior to that date. ROU assets and lease obligations for the Company's operating and financing leases are disclosed separately in the Company's condensed consolidated balance sheets.

Lease terms may include options to extend or terminate the lease, and the impact of these options are included in the calculation of the ROU asset and lease obligation only when the exercise of the option is at the Company's sole discretion and it is reasonably certain that the Company will exercise that option. The Company will not separate lease and non-lease components for its leases when it is impractical to separate the two. In addition, the Company may have certain leases that have variable payments based solely on output or usage of the leased asset. These variable operating lease assets are excluded from the Company's condensed consolidated balance sheet presentation and expensed as incurred. Leases with an initial term of 12 months or less, or short-term leases, are not recorded on the accompanying condensed consolidated balance sheets and are expensed as incurred.

**8. Income Taxes**

The Company's effective tax rate was 23.3% and 23.6% for the three months ended June 29, 2024 and July 1, 2023, respectively. The effective tax rate decreased in the current interim period as compared to the prior year quarter driven by interest received on a federal income tax refund which reduced the effective tax rate by 0.7%, partially offset by the impact of state rate changes driven by apportionment which increased the effective rate by 0.4%.

**9. Retirement Plans**

The net periodic benefit cost for the Company’s pension plan consisted of (in thousands):

	Three Months Ended	
	June 29, 2024	July 1, 2023
Service cost including administrative expenses	\$ 1,591	\$ 1,736

Net periodic benefit cost	<u>\$ 188</u>	<u>\$ 399</u>

There were no pension contributions made during the three months ended June 29, 2024 and July 1, 2023.

**10. Stockholders’ Equity**

During the three months ended June 29, 2024, the Company repurchased 117,262 shares of its Class A Common Stock at a cost of \$6.6 million, which are included in treasury stock in the condensed consolidated balance sheets. During the three months ended July 1, 2023, the Company repurchased 43,600 shares of its Class A Common Stock at a cost of \$2.2 million. The Company did not repurchase any of its Class B Common Stock in either three month interim period. As of June 29, 2024, there are 5,262,680 shares or \$206.7 million of repurchased stock being held as treasury stock. These shares are not considered outstanding and the Company accounts for treasury stock under the cost method.

**11. Fair Value of Financial Instruments**

Cash and cash equivalents, restricted cash, accounts receivable, accounts payable, note payable, and accrued expenses are reflected in the condensed consolidated balance sheets at carrying value, which approximates fair value due to the short-term maturity of these instruments.

On a quarterly basis, the Company estimates the fair values for financial instruments that are recorded at carrying value on the consolidated condensed balance sheets. The estimated fair value for long-term debt (classified as Level 2 in the fair value hierarchy) is determined by the quoted market prices for similar debt (comparable to the Company’s financial strength) or current rates offered to the Company for debt with the same maturities. The fair value and carrying value of the Company’s long-term debt are as follows (in thousands):

	As of:		
	June 29, 2024	July 1, 2023	March 31, 2024
Carrying value	\$ 572,065	\$ 433,894	\$ 604,786
Fair value	\$ 567,442	\$ 427,116	\$ 599,408

**12. Segment Information**

The Company conducts its business almost entirely in food packaging with two reportable segments: Vegetable and Fruit/Snack. The reportable segments reflect how the Company’s Chief Executive Officer, who is the Chief Operating Decision Maker (“CODM”), allocates resources and evaluates performance, and how the Company’s internal management financial reporting is structured. The Company’s CODM evaluates the performance of these reportable segments with a focus on earnings (loss) before income taxes as the measure of segment profit or loss.

**SENECA FOODS CORPORATION**  
**NOTES TO CONDENSED CONSOLIDATED STATEMENTS**  
**(Unaudited)**

The Other category consists of the Company's non-food operations including revenue derived from the sale of cans, ends, seed, outside revenue from the Company's trucking and aircraft operations, and certain corporate items. These ancillary activities do not qualify as an operating segment and are not eligible for aggregation with one of the identified operating segments; therefore they are combined and presented within the "Other" category.

Segment information is provided on a FIFO basis which is consistent with how financial information is prepared internally and provided to the CODM. The LIFO impact on earnings (loss) before income taxes and total assets is shown separately for purposes of reconciling to the GAAP financial statement measure shown on the condensed consolidated statements of net earnings and condensed consolidated balance sheets.

The following table summarizes certain financial data for the Company's reportable segments (in thousands):

	Three Months Ended June 29, 2024

Total assets	1,449,404	104,506	3,446	1,557,356	(300,740)	1,256,616

**13. Legal Proceedings and Other Contingencies**

In the ordinary course of its business, the Company is made a party to certain legal proceedings seeking monetary damages, including proceedings involving product liability claims, workers' compensation along with other employee claims, tort and other general liability claims, for which it carries insurance, as well as patent infringement and related litigation. The Company is in a highly regulated industry and is also periodically involved in government actions for regulatory violations and other matters surrounding the manufacturing of its products, including, but not limited to, environmental, employee, and product safety issues. While it is not feasible to predict or determine the ultimate outcome of these matters, the Company does not believe that an adverse decision in any of these legal proceedings would have a material impact on its financial position, results of operations, or cash flows.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Seneca Foods Corporation is a leading provider of packaged fruits and vegetables, with facilities located throughout the United States. Our product offerings include canned, frozen and jarred produce and snack chips that are sold under private label as well as national and regional brands that the Company owns or licenses, including Seneca®, Libby's®, Green Giant®, Aunt Nellie's®, Cherryman®, Green Valley® and READ®. Our products are sold nationwide by major grocery outlets, including supermarkets, mass merchandisers, limited assortment stores, club stores and dollar stores. We also sell products to foodservice distributors, restaurant chains, industrial markets, other food processors, export customers in approximately 55 countries and federal, state and local governments for school and other food programs. Additionally, the Company packs canned and frozen vegetables under contract packing agreements.

### Business Trends

We purchase raw materials, including raw produce, steel, ingredients and packaging materials from growers, commodity processors, steel producers and packaging suppliers. Raw materials and other input costs, such as labor, fuel, utilities and transportation, are subject to fluctuations in price attributable to a number of factors. Fluctuations in commodity prices can lead to retail price volatility and can influence consumer and trade buying patterns. The cost of raw materials, fuel, labor, distribution and other costs related to our operations can increase from time to time significantly and unexpectedly.

We experienced material cost increases to various production inputs during the last several years due to a number of factors, including but not limited to, supply chain disruptions, steel supply and pricing, raw material shortages, labor shortages, and the conflicts between Russia and Ukraine. While we have no direct exposure to this foreign conflict, it had a negative impact on the global economy which increased certain of our input costs. While certain of the factors mentioned above have started to ease and stabilize during the current fiscal year, our costs remain elevated as compared to historical levels.

We attempt to manage costs by locking in prices through short-term supply contracts, advance grower purchase agreements, and by implementing cost saving measures. We also attempt to offset rising input costs by raising sales prices to our customers. However, increases in the prices we charge our customers may lag behind rising input costs. Competitive pressures also may limit our ability to raise prices in response to rising costs. To the extent we are unable to avoid or offset any present or future cost increases, our operating results could be materially adversely affected.

### Results of Operations

#### Net Sales:

The following table presents net sales by product category (in thousands):

	Three Months Ended	
	June 29, 2024	July 1, 2023
Canned vegetables	\$ 253,749	\$ 250,950
Frozen vegetables	25,334	21,539
Fruit products	18,841	16,738
Snack products	2,865	3,098
Other	3,938	6,339
Total	<u>\$ 304,727</u>	<u>\$ 298,664</u>

#### Three Months Ended June 29, 2024 and July 1, 2023

Net sales totaled \$304.7 million for the three months ended June 29, 2024 as compared with \$298.7 million for the three months ended July 1, 2023. The overall net sales increase of \$6.0 million, or 2.0%, was due to higher sales volumes contributing favorability of \$11.2 million to net sales, offset by product mix and lower selling prices which had an unfavorable impact of \$5.2 million as compared to the prior year three-month interim period.

Net sales of canned and frozen vegetables increased over the prior year quarter driven by higher sales volumes in each of these product categories, which outpaced decreases related to pricing and product mix. The Company's fruit products category benefited from both increased pricing in response to material cost pressures and increases in sales volumes, which drove the net sales increase compared to the prior year quarter. Net sales in the snack products category remained relatively consistent with the prior year quarter. Offsetting the increases in the main product categories was a decrease in net sales attributable to the other category which experienced lower demand as compared to the prior year quarter for seed, cans and ends, which are ancillary to the Company's main operations.

[Table of Contents](#)**Operating Income:**

The following table presents components of operating and non-operating income as a percentage of net sales (percentages shown as absolute values):

	Three Months Ended	
	June 29, 2024	July 1, 2023
Gross margin	14.0%	18.5%
Selling, general, and administrative expense	5.7%	6.6%
Restructuring	0.1%	0.0%
Other operating income, net	0.1%	0.1%
Operating income	8.3%	11.9%
Other non-operating income	0.5%	0.4%
Interest expense, net	3.4%	2.2%
Income taxes	1.3%	2.4%

**Three Months Ended June 29, 2024 and July 1, 2023**

**Gross Margin:** Gross margin for the three months ended June 29, 2024 was 14.0% as compared to 18.5% for the three months ended July 1, 2023. The decrease in gross margin for the three months ended June 29, 2024 was mainly due to continued elevated costs. Refer to the section above for additional discussion regarding business trends. The Company's LIFO credit for the three months ended June 29, 2024 was \$2.9 million as compared to a LIFO credit of \$1.7 million for the three months ended July 1, 2023. The LIFO credit amounts have the impact of reducing cost of products sold.

**Selling, General, and Administrative:** Selling, general and administrative expense for the three months ended June 29, 2024 decreased \$2.4 million from the three months ended July 1, 2023. Selling, general, and administrative expense as a percentage of net sales for the three months ended June 29, 2024, was 5.7% as compared with 6.6% for the prior year quarter. The decrease in selling, general, and administrative expense as a percentage of net sales was due to the increase in net sales and the fixed nature of certain expenses.

**Restructuring:** The Company did not incur significant restructuring charges during the three months ended June 29, 2024. During the three months ended July 1, 2023, the Company incurred restructuring charges primarily due to equipment moves from ceasing production of green beans at a plant in the Northeast in the previous fiscal year.

**Other Operating Income, net:** The Company had net other operating income of \$0.4 million during the three months ended June 29, 2024, which was driven primarily by the sale of a small portion of land in the Midwest. During the three months ended July 1, 2023, the Company had net other operating income of \$0.2 million, which was driven primarily by the sale of a non-operational plant in the Midwest.

**Non-Operating Income (Expense):**

**Other Non-Operating Income:** Other non-operating income totaled \$1.4 million and \$1.3 million for the three months ended June 29, 2024, and July 1, 2023, respectively, and is comprised of the non-service related pension amounts that are actuarially determined.

**Interest Expense, net:** Interest expense as a percentage of net sales was 3.4% for the three months ended June 29, 2024, as compared to 2.2% for the three months ended July 1, 2023. Interest expense increased from \$6.6 million in the prior year quarter to \$10.3 million for the current quarter as a result of higher interest rates and increased borrowings under the Company's revolving credit facility as compared to the prior year quarter. Additionally, the three months ended July 1, 2023 did not have Term Loan A-2 outstanding for the entire quarterly period which contributed to a lower interest expense amount for that prior year quarter.

**Income Taxes:**

The Company's effective tax rate was 23.3% and 23.6% for the three months ended June 29, 2024 and July 1, 2023, respectively. The effective tax rate decreased in the current interim period as compared to the prior year quarter driven by interest received on a federal income tax refund which reduced the effective tax rate by 0.7%, partially offset by the impact of state rate changes driven by apportionment which increased the effective rate by 0.4%.

**Liquidity and Capital Resources**

The financial condition of the Company is summarized in the following table and explanatory review (dollar amounts in thousands, except per share data):

**Material Cash Requirements:** The Company's primary liquidity requirements include debt service, capital expenditures and working capital needs. The Company may also seek strategic acquisitions to leverage existing capabilities and further build upon its existing business. Liquidity requirements are funded primarily through cash generated from operations and external sources of financing, including the revolving credit facility.

During the preceding fiscal years, working capital needs trended higher than previously experienced by the Company in part because of larger annual pack sizes needed to replenish the Company's post-pandemic inventory levels to meet customer demand, and because of supply chain challenges in the steel industry which impacted can manufacturing operations. To successfully navigate the uncertainty driven by inflation and import tariffs, and a desire to diversify its steel supply, the Company employed a strategic approach during those fiscal years and increased steel coil purchases to better position itself for subsequent years. The Company's larger seasonal pack sizes driven by favorable growing conditions, coupled with lower sales in an industry that is experiencing negative sales category trends overall, resulted in higher inventory levels for finished goods as of the end of fiscal year 2024. This will have a favorable impact on the availability of products in fiscal year 2025, resulting in a lower planned seasonal pack and the opportunity to normalize working capital trends, specifically surrounding inventory.

The Company believes that its operations along with existing liquidity sources will satisfy its cash requirements for at least the next twelve months. This includes the Company's expectation with respect to Term Loan A-1 that matures on June 1, 2025, that it will maintain or have access to sufficient liquidity to retire or refinance long-term debt at maturity or otherwise, using operating cash flows, access to the capital markets, and access to its revolving credit facility. The Company has borrowed funds and continues to believe that it has the ability to do so at reasonable interest rates, however additional borrowings would result in increased interest expense. The Company does not have any off-balance sheet financing arrangements.

**Summary of Cash Flows:** The following table presents a summary of the Company's cash flows from operating, investing and financing activities (in thousands):

	Three Months Ended	
	June 29, 2024	July 1, 2023
Cash provided by operating activities	\$ 50,332	\$ 25,024
Cash used in investing activities	(13,377)	(11,671)
Cash used in financing activities	(35,833)	(13,318)
Increase in cash, cash equivalents and restricted cash	1,122	35
Cash, cash equivalents and restricted cash, beginning of period	11,853	12,256
Cash, cash equivalents and restricted cash, end of period	\$ 12,975	\$ 12,291

[Table of Contents](#)

***Net Cash Provided by Operating Activities:*** For the three months ended June 29, 2024, cash provided by operating activities was \$50.3 million, which consisted of \$28.3 million for operating assets and liabilities, coupled with net earnings of \$12.7 million and non-cash charges of \$9.3 million. The non-cash charges were largely driven by \$10.8 million of depreciation and amortization, \$1.6 million of non-cash lease expense, partially offset by a \$2.9 million LIFO credit. The change in operating assets and liabilities was largely due to inventories contributing favorably as the strategic approach discussed above within the material cash requirements section resulted in lower working capital needs, especially for steel, during the current three month period. A corresponding decline in accounts payable activity also contributed to the change in operating assets and liabilities.

For the three months ended July 1, 2023, cash provided by operating activities was \$25.0 million, which consisted of net earnings of \$23.1 million, adjusted by non-cash charges of \$11.1 million, partially offset by operating assets and liabilities using cash of \$9.2 million. The non-cash charges were largely driven by \$10.7 million of depreciation and amortization, \$1.9 million of non-cash lease expense, partially offset by a \$1.7 million LIFO credit. The change in operating assets and liabilities was due to inventories being a use of cash as early stages of the Company's seasonal pack commenced during the quarter, in addition to material cost inflation to various production inputs.

The cash requirements of the business fluctuate significantly throughout the year to coincide with the seasonal growing cycles of vegetables. The majority of the inventories are produced during the packing months, from June through November, and are then sold over the following twelve months. Cash flow from operating activities is one of the Company's main sources of liquidity, excluding usual seasonal working capital swings.

***Net Cash Used in Investing Activities:*** Net cash used in investing activities was \$13.4 million for the three months ended June 29, 2024, and consisted of cash used for capital expenditures of \$12.1 million and \$1.7 million paid as deposits to vendors for a new can manufacturing line. Offsetting those amounts, the Company received proceeds from the sale of assets totaling \$0.4 million.

Net cash used in investing activities was \$11.7 million for the three months ended July 1, 2023, and consisted of cash used for capital expenditures of \$14.8 million partially offset by proceeds from the sale of assets totaling \$3.1 million.

***Net Cash Used in Financing Activities:*** Net cash used in financing activities was \$35.8 million for the three months ended June 29, 2024, driven primarily by a net paydown on the Company's revolving credit facility of \$28.0 million and term loan payments of \$4.8 million during the quarter. Offsetting the payments was a \$5.0 million increase in the note payable borrowings associated with the Company's new can manufacturing line. Additionally, the Company used cash of \$6.6 million to purchase treasury stock and made payments of \$1.4 million on financing leases.

Net cash used in financing activities was \$13.3 million for the three months ended July 1, 2023, driven primarily by a net paydown on the Company's revolving credit facility of \$128.4 million and term loan payments of \$4.8 million. That activity was offset by the Company receiving proceeds of \$124.4 million from a new term loan during the quarter. Additionally, the Company used cash of \$2.2 million to purchase treasury stock and made payments of \$2.3 million on financing leases.

**Impact of Seasonality on Financial Position and Results of Operations:**

The Company's production cycle begins with planting in the spring followed by harvesting and packaging during the second and third fiscal quarters with sales spanning over the following twelve months. Minimal food packaging occurs in the Company's last fiscal quarter ending March 31, which is the optimal time for maintenance, repairs and equipment changes in its packaging plants. The supply of commodities, current pricing, and expected new crop quantity and quality affect the timing and amount of the Company's sales and earnings. When the seasonal harvesting periods of the Company's major vegetables are newly completed, inventories for these packaged vegetables are at their highest levels. For peas, the peak inventory time is mid-summer and for corn and green beans, the Company's highest volume vegetables, the peak inventory is in mid-autumn. The seasonal nature of the Company's production cycle results in inventory and accounts payable reaching their lowest point in mid-to-late first quarter prior to the new seasonal pack commencing. As the seasonal pack progresses, these components of working capital both increase until the pack is complete.

The Company's fruit and vegetable sales exhibit seasonal increases in the third fiscal quarter due to increased retail demand during the holiday seasons. In addition, the Company sells canned and frozen vegetables to a co-pack customer on a bill and hold basis during the pack cycle, the majority of which typically occurs in the second and third quarters. The seasonal nature of the Company's sales, particularly holiday driven retail sales, result in the accounts receivable balance reaching its highest point at the end of the second and third fiscal quarters, while typically being the lowest at the end of the first quarter.

[Table of Contents](#)**Non-GAAP Financial Measures:**

Adjusted net earnings, EBITDA, and FIFO EBITDA are non-GAAP financial measures and are provided for informational purposes only. The Company believes these non-GAAP financial measures provide investors with helpful information to evaluate financial performance, perform comparisons from period to period, and to compare results against the Company's industry peers. A non-GAAP financial measure is defined as a numerical measure of the Company's financial performance that excludes or includes amounts so as to be different from the most directly comparable measure calculated and presented in accordance with GAAP in the condensed consolidated balance sheets and related condensed consolidated statements of net earnings, comprehensive income, stockholders' equity and cash flows. The Company does not intend for this information to be considered in isolation or as a substitute for other measures prepared in accordance with GAAP.

Adjusted net earnings are calculated on a FIFO basis which excludes the impact from the application of LIFO. Set forth below is a reconciliation of reported net earnings before income taxes to adjusted net earnings (in thousands):

	Three Months Ended	
	June 29, 2024	July 1, 2023
Earnings before income taxes, as reported	\$ 16,501	\$ 30,261
LIFO credit	(2,918)	(1,700)
Adjusted earnings before income taxes	13,583	28,561
Income taxes (1)	3,125	6,727
Adjusted net earnings	\$ 10,458	\$ 21,834

- (1) For the three months ended June 29, 2024 and July 1, 2023, income taxes on adjusted earnings before taxes were calculated using the income tax provision amounts of \$3.8 million and \$7.2 million, respectively, and applying the statutory tax rates of 24.5% and 24.9%, respectively, for each of the respective periods to the pre-tax LIFO credit.

The Company believes EBITDA is often a useful measure of a Company's operating performance because EBITDA excludes charges for depreciation, amortization, non-cash lease expense, and interest expense as well as the Company's provision for income tax expense. EBITDA is frequently used as one of the bases for comparing businesses in the Company's industry. FIFO EBITDA also excludes non-cash charges related to the LIFO inventory valuation method. The Company's revolving credit facility and term loan agreements use FIFO EBITDA in the financial covenants thereunder. Set forth below is a reconciliation of reported net earnings to EBITDA and FIFO EBITDA (in thousands):

	Three Months Ended	
	June 29, 2024	July 1, 2023
Net earnings	\$ 12,661	\$ 23,111
Income tax expense	3,840	7,150
Interest expense, net of interest income	10,345	6,573
Depreciation and amortization (1)	12,446	12,603
Interest amortization (2)	(115)	(100)
EBITDA	39,177	49,337
LIFO credit	(2,918)	(1,700)
FIFO EBITDA	\$ 36,259	\$ 47,637

- (1) Includes non-cash lease expense consistent with financial covenant calculations.  
(2) Reconciling item needed to exclude debt issuance cost amortization from the amount shown for interest expense.

**New Accounting Standards**

Refer to Note 1, "Basis of Preparation and Presentation", to the Condensed Consolidated Financial Statements contained herein.

**Critical Accounting Estimates**

A description of the Company's critical accounting estimates is contained in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2024. There were no material changes to the Company's critical accounting policies or estimates during the three months ended June 29, 2024.

## Forward-Looking Information

This Quarterly Report on Form 10-Q contains “forward-looking statements” as that term is used in the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the fact that they address future events, developments, and results and do not relate strictly to historical facts. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate, or imply future results, performance, or achievements, and may contain the words “will,” “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “seeks,” “should,” “likely,” “targets,” “may,” “can” and variations thereof and similar expressions. Forward-looking statements are subject to known and unknown risks, uncertainties, and other important factors that could cause actual results to differ materially from those expressed. We believe important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- the effects of rising costs and availability of raw fruit and vegetables, steel, ingredients, packaging, other raw materials, distribution and labor;
- crude oil prices and their impact on distribution, packaging and energy costs;
- an overall labor shortage, ability to retain a sufficient seasonal workforce, lack of skilled labor, labor inflation or increased turnover impacting our ability to recruit and retain employees;
- climate and weather affecting growing conditions and crop yields;
- our ability to successfully implement sales price increases and cost saving measures to offset cost increases;
- the loss of significant customers or a substantial reduction in orders from these customers;
- effectiveness of our marketing and trade promotion programs;
- competition, changes in consumer preferences, demand for our products and local economic and market conditions;
- the impact of a pandemic on our business, suppliers, customers, consumers and employees;
- unanticipated expenses, including, without limitation, litigation or legal settlement expenses;
- product liability claims;
- the anticipated needs for, and the availability of, cash;
- the availability of financing;
- leverage and the ability to service and reduce debt;
- foreign currency exchange and interest rate fluctuations;
- the risks associated with the expansion of our business;
- the ability to successfully integrate acquisitions into our operations;
- our ability to protect information systems against, or effectively respond to, a cybersecurity incident or other disruption;
- other factors that affect the food industry generally, including:
  - recalls if products become adulterated or misbranded, liability if product consumption causes injury, ingredient disclosure and labeling laws and regulations and the possibility that consumers could lose confidence in the safety and quality of certain food products;
  - competitors’ pricing practices and promotional spending levels;
  - fluctuations in the level of our customers’ inventories and credit and other business risks related to our customers operating in a challenging economic and competitive environment; and
  - the risks associated with third-party suppliers, including the risk that any failure by one or more of our third-party suppliers to comply with food safety or other laws and regulations may disrupt our supply of raw materials or certain finished goods products or injure our reputation; and
- changes in, or the failure or inability to comply with, U.S., foreign and local governmental regulations, including health, environmental, and safety regulations.

Any of these factors, as well as such other factors as discussed in our other periodic filings with the SEC, could cause our actual results to differ materially from our anticipated results. The information provided in this Form 10-Q is based upon the facts and circumstances known as of the date of this report, and any forward-looking statements made by us in this Form 10-Q speak only as of the date on which they are made. Except as required by law, we undertake no obligation to update these forward-looking statements after the date of this Form 10-Q to reflect events or circumstances after such date, or to reflect the occurrence of unanticipated events.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

In the ordinary course of business, the Company is exposed to various market risk factors, including changes in general economic conditions, competition and raw material pricing and availability. There have been no material changes to the Company's exposure to market risk since March 31, 2024. In addition, the Company is exposed to fluctuations in interest rates, primarily related to its revolving credit facility, Amended Term Loan A-2 and note payable. To manage interest rate risk, the Company uses both fixed and variable interest rate debt plus fixed interest rate lease obligations.

**Item 4. Controls and Procedures**

The Company maintains a system of internal and disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported on a timely basis. The Company's Board of Directors, operating through its Audit Committee, which is composed entirely of independent outside directors, provides oversight to the financial reporting process.

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of June 29, 2024, our disclosure controls and procedures were effective. The Company continues to examine, refine and formalize its disclosure controls and procedures and to monitor ongoing developments in this area.

There have been no changes during the period covered by this report to the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II – OTHER INFORMATION**

**Item 1. Legal Proceedings**

Refer to Note 13, “Legal Proceedings and Other Contingencies,” to the Condensed Consolidated Financial Statements contained herein.

**Item 1A. Risk Factors**

There have been no material changes to the risk factors disclosed in the Company’s Annual Report Form 10-K for the period ended March 31, 2024, except to the extent factual information disclosed elsewhere in this Form 10-Q relates to such risk factors.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**
